| MAICRANDUM FOR: | Chief, Defensive Systems Div | ision, OSI |
| CATENTION: | | |
| FROM: | Chief, CIA/PID (NPIC) | |
| SUBJECT: | | |
| | Request for Graphics and Pho Installation at Pei-Chi Sh | to Interpretation of Radar an, China. |
| REFERENCE: | (a) Requirement C-SI-3-80,49 | 3 |
| | (b) CIA/PID Project C 1159-6 | 3 |
| | | |
| (Soviet designat | rly Warning - 5CR-270 indicate or NRZ-1) indicated by a dot. | and an NVRA_C madem 4-24-1-1 |
| b. Raphoto. | dio High Frequency - dipole ar | and an NYSA-C radar indicated by an tennas indicated by a circle on |
| b. Raphoto. | dio High Frequency - dipole ar | and an NYSA-C redar indicated by an tennas indicated by a circle on |
| b. Raphoto. c. Raby a triangle on 3. The pho | dio High Frequency - dipole and dio Low Frequency - possible le photos. Probably also used a to analyst on this project tel | tennas indicated by a circle on Ow frequency wire antennas indicated a a navigational aid. |
| b. Raphoto. c. Raby a triangle on 3. The pho | dio High Frequency - dipole and dio Low Frequency - possible le photos. Probably also used a to analyst on this project tel | tennas indicated by a circle on Ow frequency wire antennas indicated a a navigational aid. |
| b. Raphoto. c. Raby a triangle on 3. The phoon extension | dio High Frequency - dipole and dio Low Frequency - possible 1 photos. Probably also used a to analyst on this project is should you have any further | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. |
| b. Raphoto. c. Raby a triangle on 3. The phoon extension | dio High Frequency - dipole and dio Low Frequency - possible le photos. Probably also used a to analyst on this project tel | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. |
| b. Raphoto. c. Raby a triangle on 3. The phoon extension | dio High Frequency - dipole and dio Low Frequency - possible 1 photos. Probably also used a to analyst on this project is should you have any further | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. |
| b. Raphoto. c. Raby a triangle on 3. The phoon extension | dio High Frequency - dipole and dio Low Frequency - possible 1 photos. Probably also used a to analyst on this project is should you have any further | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. |
| b. Raphoto. c. Raby a triangle on 3. The phoon extension | dio High Frequency - dipole and dio Low Frequency - possible 1 photos. Probably also used a to analyst on this project is should you have any further | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. |
| b. Raphoto. c. Raby a triangle on 3. The phoon extension 4. This pro- | dio High Frequency - dipole and dio Low Frequency - possible 1 photos. Probably also used a to analyst on this project is should you have any further | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. |
| b. Raphoto. c. Raphoto. d. The phoon extension 4. This produces: 1 - Two (2) 7x | die High Frequency - dipole ar die Lew Frequency - possible l photos. Probably also used a to analyst on this project is should you have any further enject is considered to be comp | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. |
| b. Raphoto. c. Raphoto. by a triangle on 3. The phoon extension 4. This profile of the phoon extension 4. This profile of the phoon extension is a phoon extension is a profile of the phoon extension is a profile of the phoon extension is a phoon extension in the phoon extension is a phonon extension in the phoon extension is a phonon extension in the phoon extension in the phonon extension is a phonon extension in the phonon extension in the phonon extension is a phonon extension in the phonon extension in the phonon extension is a phonon extension in the phonon extension in the phonon extension is a phonon extension in the phonon extension in the phonon extension is a phonon extension in the phonon extension in the phonon extension in the phonon extension is a phonon extension in the phonon extension extensio | die High Frequency - dipole and die Low Frequency - possible le photos. Probably also used a to analyst on this project is should you have any further expect is considered to be comp | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. lete. |
| b. Raphoto. c. Raphoto. b. Raphoto. c. Raphoto. 3. The photon extension 4. This profile p | die High Frequency - dipole ar die Lew Frequency - possible l photos. Probably also used a to analyst on this project is should you have any further enject is considered to be comp | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. |
| b. Raphoto. c. Raphoto. b. Raphoto. c. Raphoto. 3. The photon extension 4. This profile p | die High Frequency - dipole ar die Lew Frequency - possible l photos. Probably also used a to analyst on this project is should you have any further enject is considered to be comp | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. lete. |
| b. Raphoto. c. Raphoto. d. The phoon extension 4. This produces: 1 - Two (2) 7x | die High Frequency - dipole ar die Lew Frequency - possible l photos. Probably also used a to analyst on this project is should you have any further enject is considered to be comp | tennas indicated by a circle on ow frequency wire antennas indicated a navigational aid. and he may be contacted questions regarding this project. lete. |

5X1

Approved For Release 2004/07/29 : CIA-RDP78T04743A000300060062-8
